MEET THE TEAM

About us

Dear Guest,

Harrogate Lifestyle Apartments offer a luxury accommodation experience where visitors can rent an apartment from one night or more to enjoy all the delights that the Harrogate Lifestyle offers.

Our 18 serviced apartments opened in the heart of Harrogate Spa Town in North Yorkshire in 2017. The team who run the apartments have a wealth of knowledge from the industry having run serviced apartments since 2006.

Andrew Armstrong is the owner of Harrogate Lifestyle Apartments Ltd and he first began his venture back in 2006 when the concept of serviced apartment living was at it's infancy. Starting with just two apartments in Harrogate town centre, Andrew began to fill these with visitors who wanted to rent the apartments from 1 night to several months at a time.

It was clear that there was a growing demand for an alternative to hotel living and that Harrogate was a superb option for the business due to the gross number of visitors the town attracted for business and leisure purposes all year round.

With great feedback from guests and a growing team around him, Andrew gained confidence in the potential of the busines and wanted to expand. Two apartments became five then five became ten...

In 2016 Andrew was approached by the property developer who was mid build of a brand new luxury apart-hotel in Harrogate town centre which was located directly opposite the International Convention Centre. With the completion date set for the following year, Andrew was asked if he would be interested in running the apart-hotel on completion!

The building itself had been an eye sore of the town calling out for a makeover for years!

After an extensive re-development, much to the local Harrogate communities delight, the building was transformed from a dingy club to a beautiful luxury apart-hotel and we were finally able to move in at the start of 2017!
With the brand new location in a brand new building Andrew felt it was time to give the business a brand new name to suit and Harrogate Lifestyle Apartments was born!

We promise to continue working hard to ensure our guests have a fantastic experience with us every time they visit.
